**SEMINAR**

## **Protection of Creation and Innovation**

**Speaker: Karim Tadrict**

*(CentraleSupélec, France)*

**Date:** 20 December 2016 @ 02:00 PM

**Location:** Room Garda – Polo Scientifico F. Ferrari – Povo

**Note:** The seminar will be held in English

**Contact:** Prof. Giacomo Oliveri ([giacomo.oliveri@unitn.it](mailto:giacomo.oliveri@unitn.it))

Within a fast evolving economy, based on knowledge, the protection of intellectual property assets is a must. While we are facing a globalized environment which is challenging the efficiency of any legal system, the purpose of this talk is to help students understand the mechanism behind the protection of intellectual property through ground notions and, therefore, it's flexibility. This condensed overview of the field will give the students a theoretical as well as a practical toolbox to handle these issues

- **About the Speaker**

**Karim Tadrict** is currently contract manager for research at Centrale Supélec, Gif-sur-Yvette, France, and he is responsible for counselling and negotiations of contracts with public and private entities.

His responsibilities include legal negotiations for industrial chairs, counselling and awareness raising actions on intellectual property, active participation in organization of “competitive clusters”, RTRA and research valorization, legal project management as part of « technological maturation» operations, and legal management in company building. He is currently sessional lecturer in French and English on « Law and Intellectual Property » For Phd students, masters HCID (University Paris Sud), masters Erasmus mundus (CentraleSupélec).
